## REDISTRICTING

Of the State is Desired by Governor Wilson—Commission to Prepare Bill.

Has Six Democrats and Six Republicans.

On October 5th a commission which will prepare a redistricting Kentucky into new legislative, senatorial and congressional districts was named by Gov. Wilson. The commission is equally divided politically:

Judge Alex P. Humphrey, Democrat, chairman, Louisville; Col. Andrew Cowan, Republican, Louisville; O. H. Wadde, Republican, Somerset; T. L. Edelen, Republican, Frankfort; Col. John R. Allen, Democrat, Lexington; John F. Hager, Democrat, Ashland; Hon. L. J. Crawford, Republican, Newport; John T. Shelby, Republican, Lexington; Hon. Jerry Sullivan, Democrat, Richmond, and Hon. C. U. McElroy, Democrat, Bowling Green.

Governor Wilson has requested each of these men to prepare a bill that will be fair to all the people and also to make any changes that may be needed in the election laws. The commission is expected to report at the next Legislature.

Following is the Governor's letter:

Gentlemen—Section 33 of the Constitution, which is the convention of the people of Kentucky, binding upon all the people and their officers, commands that once in every ten years the State shall be divided into thirty-eight senatorial districts, and one hundred representative districts, provided, in doing so, the principle requiring every district to be as nearly equal in population as may be, shall not be violated.

The law now in force is the Act of 1893, more than sixteen years ago. Three years after the time commanded by the Constitution the Act of 1906 was adopted redistricting the State, but in *Ragland vs. Anderson*, 125 Kentucky, the Court of Appeals in an eminent nonpartisan opinion held that the inequality of this Act is so glaring that it precludes the possibility that there was any attempt to divide the State into one hundred legislative districts as nearly equal as may be, and that it was clearly violative of the constitutional inhibition against inequality and declared that "equality of representation is vital principle of democracy; that without equality republican institutions are impossible, and that inequality of representation is a tyranny to which no people worthy of freedom will tamely submit; that equality of representation is the basis of patriotism; that no citizen will, or

ought to, love the State which oppresses him, and that citizen is arbitrarily oppressed who is denied equality of representation with every other citizen of the Commonwealth."

It is known to all of the people and was implied by the opinion of the Court of Appeals that the existing law, the Act of 1893, also clearly violates the Constitution, but it could not be said that it was unconstitutional without throwing the State government into chaos as it had been organized under that law after the adoption of the new Constitution.

The Court expressed its faith that the members of the next General assembly, "impelled by their senses of duty, the obligations of their oaths of office, together with that spirit of justice which is the heritage of the race, will redistrict the State as the Constitution requires."

It is clearly to be regretted by all that the last General Assembly did not redistrict the State, and another election of Senators and Representatives must be held under the unequal and unfair Act of 1893. The "sense of duty," "the obligations of the oath of office," and "the spirit of justice which is the heritage of the race" will again impose upon the General Assembly this duty of redistricting the State as the Constitution requires.

But the short term of sixty days and the many important matters which will be considered in that assembly will endanger the chance of adopting a just redistricting bill, and in order to lessen the probability of this, the commission will be called in full uniform, or to participate as a Federal officer.

"I do not dispute the right of General Grant to take part in this movement as a private citizen, but believe he has no right to head a parade in full uniform, or to participate as a Federal officer.

"Will you kindly inform me whether the department has ruled on such conduct, and whether the same can be said to have received official sanction?"

Several letters taking a contrary stand have been sent to the Secretary. These approve the action of General Grant. They claim that the parade was not a "Prohibition parade," but was "a movement for great civic righteousness and the enforcement of law and order in Chicago."

LATER.—We have not yet reply of the Secretary of War, but know that in his answer he made no remonstrance against the action of Gen. Grant, but sustained him in what he did.

The sting of inequality and injustice in the present districts hurts the State and the feelings of all good people. While perfect inequality of population in all dis-

## GEN. FRED GRANT Heads Good Government Parade In Chicago.

## LETTERS LOSE THE VEIL OF SECRECY. Clandestine Correspondence Cut Out.

"It was not a temperance parade, but a demonstration in favor of good government and law and order, and I should have been derelict in my duties if I had not been requested, headed the parade, as I did and shall continue until prohibited to do the same thing whenever I deem it necessary to advance the cause of good government."

This is the substance of a statement made by General Frederick D. Grant on September 29 in answer to a letter sent by W. R. Michealis, of Chicago, to the Secretary of War, criticizing Grant for having appeared in full uniform in a so-called temperance parade in Chicago. Mr. Michealis' letter is as follows:

"On Saturday last Major General Frederick D. Grant, of the United States Army, and in full uniform of the United States Army, marched at the head of a prohibition parade in Chicago. The above incident has caused considerable comment, and it is rumored that the same means that the Federal Government and the army in general have taken sides with the prohibition movement.

"It is also stated that the prohibition organizations contemplate bringing about an election in this city next spring to determine the popularity of a just redistricting bill, and in order to lessen the probability of this, the commission will be called in full uniform, or to participate as a Federal officer.

"Will you kindly inform me whether the department has ruled on such conduct, and whether the same can be said to have received official sanction?"

Some of the reasons assigned by Colonel Stuart for the innovation follow:

"Evil comes from the delivery of thousands of letters weekly to girls under age."

"Thousands daily receive mail under fictitious names from which good comes."

"The general delivery is lately overtaxed by the growing demands of fictitious letter writers."

"Crime may oftentimes be prevented and more easily detected when individuals receive their mail at their homes."

To the question, "Why don't you have your mail delivered at home?" there were many answers. Some of the reasons were:

"My husband and I don't agree and I have to get my mail at the general delivery."

"There are good reasons why I get my mail here, as I have a perfect right to do."

"I am here only temporarily."

"I don't want others in the house to see my mail."

"We are doing this," said Colonel Stuart, "for the general good of the public and the service. If, after a card has been signed, the individual calls for mail under another name postal authorities will investigate the circumstances. If the person is a girl or young the parents will be notified of it."

## Too True.

Parents oftentimes wonder who or what has ruined their boys. They have been in school every day but the teacher does not teach them any morality or else his teaching is a failure. The truth is, the boys are on the streets from the time school closes until late at night. The street corner is the best place in the world for teaching vice, profligacy and crime; nearly all the bad language and idle, vicious habits of boys are taught on the streets at late hours of the night. Teachers may be able to accomplish a little in counteracting vile influences, but much of their labor is in vain until parents co-operate with them in keeping their boys off the street.—Ex.

### WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dryness, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Robert Sheridan, South Queen street, Mt. Sterling, Ky., says:

"I have used Doan's Kidney Pills off and on for two years and have found them to be a remedy that lives up to representations.

I suffered greatly from lumbago, which came on by attacks, some of which were so severe that I could hardly get around. I had pains through my back and kidneys, which at times extended into my shoulders. I was also annoyed by irregular passages of the kidney secretions and I think that the hard work on the railroad was responsible for all my suffering. I was unable to find relief until I procured Doan's Kidney Pills at F. C. Duerson's drug store. They gave me prompt relief and I continued taking them until at present I am almost entirely cured."

### ANNOUNCEMENTS

#### FOR MAGISTRATE

We are authorized to announce:

#### J. RICHARD TRIMBLE

of Louisville, a candidate for Magistrate in the Jeffersonville-Camargo district, subject to the action of the Republican party.

The registration in Louisville was approximately: Democrats, 23,534; Republicans, 19,054; Independents, 10,065. The Independents are largely counted as voting with the Republicans. The Democrats cry fraud and repeaters. The Republicans say the registration was the fairest and most orderly in history of city. Take your choice.

#### LEBUS.

There is a question of which is the worst, the American Tobacco Company, dominated by Duke, or the Burley Tobacco Society, dominated by Lebus.

A friend suggests that in the change of the charter, it be called The Clarence Lebus Society of the White Burley district.

To an outsider it looks like the Board that Mr. Lebus controls don't want any more pooled tobacco.

At a late hour Wednesday by a vote of 23 to 5, the Board decided to move the headquarters of Winchester to Lexington. The scheme was well managed by the President, Mr. Lebus.—Winchester Sun-Sentinel.

### IN TROUBLE.

The Democratic Legislator E. W. Lillard, of Danville, who helped defeat temperance legislation and voted against Gov. Beckham and for Bradley in U. S. Senatorial race, has been indicted 45 times and fined \$3,300. He paid \$300 and agreed to close his drug store if the other indictments were suspended.

He is a great (?) man to represent respectable and law-abiding

people, but perhaps he is one of Henry Watterson's kind of Democrats. Of course, Democrats in Kentucky are proud of him (?) He is a law maker and breaker many times.

### REINSTRUCTING.

Every voter should read the communication from Gov. Wilson. The appointment of a committee composed of able, prominent and reputable citizens, equally divided between Democrats and Republicans to recommend to the next Legislature a fair and equal redistricting bill is certainly commendable. The committee with a Democratic Chairman can only recommend the enactment of such a bill. We hope these men prompted by patriotism and not by political partisanship will perform the service requested, and that when the question comes before the Legislature it will be disposed of in an equally patriotic manner.

We have as little sympathy with jiggery, dishonesty, unfairness and theft in political affairs as we have for the same traits in business affairs. Going to dishonest and hell by one route will be as tortuous and as eternal as by the other.

There are rumors that the Republicans are still trying to persuade some of their force to run for County Judge. Hurry up or time will be called. Ambrose's nomination is equivalent to a defeat, and the prospective glory and emoluments are not sufficient to induce.

It is a sad commentary on a man's life when he leaves his town or county for his town or county's good.

### Shelburne's Tobacco Warehouse.

We are now ready to begin receiving and selling the new crop of tobacco. Our buyers are now anxious to begin work, and promise us good prices for all well cured tobacco we can get.

A few lots came in and were sold on Friday at the following prices: 1st, 10c, 12½c, 13c, 15c, 16c, 17c, 17½c; making an average of \$15.80, which we consider high for the quality of the tobacco.

Bring us a load as soon as you get it ready, we are confident we can please you.

We are in position to get you the highest market prices as we do not buy any tobacco in the country to speculate on our customers, so have no tobacco of our own to sell, but give our entire time and attention to the sale of YOURS.

We want you to come and see the new addition to our house; it is a dandy good one, and is built especially to show your tobacco to the best advantage, with a south light on the entire door. When you sell your tobacco you want to sell it to every possible advantage. All we ask is for you to come and see for yourself which is the best place to sell, and the best accommodations.

### Died On Shipboard.

On October 5 as an Atlantic steamer from Europe dropped anchor in New York a woman once well known in New York and Louisville died. She is Marquise Meriville, formerly Miss Mary Gwendolen Caldwell, of Louisville, who was very wealthy, and in social circles distinguished about 25 years ago. In 1880 she renounced society and the protestant religion and decided to become a nun in the Catholic church.

For some reason she did not become a nun and gradually her interest in the Catholic church waned until in 1905 she had an open rupture with it and left the church. She requested that a large portrait of herself, which adorned Caldwell Hall at the Catholic University, be removed, which was done, also that the name of Caldwell Hall, a building which she had presented to the university, be changed, and this was also done. In 1897 Miss Caldwell met and married the Marquis Des Montiers-Meriville and since then had lived in Paris and Rome. Her husband was in Paris, and a telegram was sent announcing her death.

Miss Caldwell was born in Louisville, the daughter of William Caldwell and was married at 22. On the death of their parents Marquise and her sister, Mary Byrd Caldwell, now Baroness Zietzweitz, were left an estate estimated at about \$5,000,000. Some years ago Marquise Meriville made a gift of \$300,000 to the Roman Catholic University at Washington, D. C., and received much attention from the hierarchy in the United States and Europe for her piety. Because of her munificence toward Catholic education she was invested by Pope Leo XIII. with the Order of the Golden Rose, one of the highest distinctions that can be conferred by the Supreme Pontiff. About six years ago she renounced the Catholic faith and became a member of the Methodist Episcopal Church.

Her sister married Baron von Zietzweitz, a member of the German legion in Washington, who afterward was killed while racing his yacht.

The Kentucky estate consists principally of property in Louisville and the ancestral home for 123 years and one of the finest stock farms in the Bluegrass region, comprising 619 acres. This portion of the estate is estimated at \$900,000 and \$1,000,000. The New York part is more valuable.

### Republican Candidates.

So far as we have heard these are the Republican candidates in our county:

### MAGISTRATES.

C. G. Thompson, city, no opposition.

E. R. Hall, Third district, against C. L. Dean.

John F. Grooms, Fourth district, against T. C. Quisenberry, John C. Trimble, Sixth district, no opposition.

Thus far M. F. O'Rear has declined to accept the Republican nomination for County Judge. The time is short for other nominations, and the indications are that the Democratic nominees will have no opposition.

County Boy.

On Saturday night at a disreputable dive in one of Lexington's worst sections Jesse Barry, aged 22 years, son of Policeman John F. Barry, formerly of Steppone creek, in this county, became involved in a difficulty with Chas. Beckett, aged 26. Beckett was shot twice by Barry and died on Monday morning after 6 o'clock at St. Joseph's hospital.

The young men were at a dance, where men and women of low character resort. The woman involved was Grace Williams. A man named J. D. Myers, reported as being from Salt Lick, Ky., was a witness of a part of the tragedy. Barry is in jail on a murder charge. W. P. Kimball is his attorney. The case was to be considered yesterday.

### No Moral in This Story.

In January, 1898, a poor boy lived at the example of a family of a washerwoman on the West side. He said he was starving, and she gave him half a dollar. Nothing was heard of him until one day last week, when his master called again and got another half dollar.—Smart Set.

### Sarcasm of Humor.

It is to be feared that if the papers reserved a special corner once each week for the witicism of the week, it would be often left blank. There is no wit to spend of to-day, only a feeble imitation of it which people are fond of calling the same sort of humor.—London Saturday Review.

A residence of at least five years is required to qualify an alien for naturalization. No matter how long a man may reside in the United States, two years must elapse between the date of his declaration of intention and his admittance to full citizenship.

### Favorite Form of Suicide.

Though shooting is recognized as an easy mode of suicide, it is not the favorite one in New York city, for according to the coroner's records, there are one-twelfth more cases of self-destruction by asphyxiation.

### The Power of Suggestion.

"I know what I am going to do," said the exasperated head of the family as he listened for the twentieth time to the only tune his daughter knew how to play on this fresh air piano. "I am going to join this fresh air crusade."

### Appropriate to the Occasion.

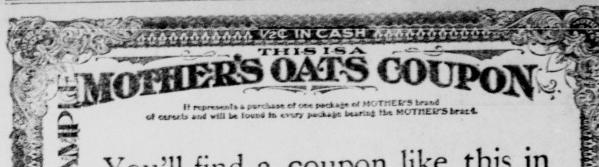

During the singing of a hymn that starts "Happy birds that sing and fly" a thrush flew down from the roof of St. Peter's church at Rickmansworth, England, and settled on the hymn book held by one of the congregation.

### Simply Impossible.

Big with the importance of a new discovery, a London preacher says: "Never check the flowing tide of women's talk." We never heard of any body who ever did.—Chicago Post.

### Latest in Visiting Cards.

The newest visiting-card fad is to have a little plan showing the residence and the adjacent streets printed on the back.

You'll find a coupon like this in every sanitary sealed package of Mother's Cereals. The label guarantees that the products are the finest obtainable in America. Cecil Pettyatty,  
Prince of the Greenbackets is named after the famous politician who died on December 11, 1892. In the times of the intense popularity Gambetta had an experience while he was sent to teach the names of Paris administrators, mayors, and lesser officials. During the carriage to his house Gambetta would arrange this with an air of pride and he would add with a smile: "But I never saw my bones again."

At Louisville George D. Todd filed suit for an injunction to prevent Mayor James B. Grinstead, being a candidate for Mayor, and to prevent County Clerk Mark Gabbard from placing Grinstead's name on the ballot for the November election. Mr. Todd is the duly nominated candidate of the Liberty and Home Protective Party.

#### Knights of Pythias Convention.

The Knights of Pythias met in Annual State convention at Winchester last week. J. M. Stevenson delivered the address of welcome. The response was by O. H. Pollard, of Jackson. An automobile ride and reception in auditorium were some of the pleasure features. Shelbyville gets the next convention.

According to reports thirteen new lodges were instituted during the year. Two were consolidated and two became defunct. The total number in the State is now 178 with a membership of 13,791. About fifteen hundred new members were added during the year, but over thirteen hundred were lost by death, suspension, etc., leaving a net gain of 179.

Reports show that the lodges own real estate to the value of \$85,749; cash, \$40,640; stocks and bonds, \$51,755 and other property, bringing the total to \$239,816. The value of the Pythian Home at Lexington is placed at \$75,000. There are now at the Home two widows and thirty-one children. One child died during the year and one of the widow inmates married while on a visit to Oklahoma. The total cost of maintaining the inmates for the past year was \$7,784, or \$175.75 for each.

Friends in Need.  
What need we have any friends, if we should never have need of them? They were the most needless creatures in the world, and we could do without them, and would much resemble a swat instruments hung up in cases that kept their sounds to themselves—Shakespeare.

#### Strong of Buyers Continue.

The people of Mt. Sterling and vicinity appreciate the great advantage W. S. Lloyd obtained for them, in getting the Dr. Howard Co. to allow the regular 50 cent size of Dr. Howard's specific, for the cure of constipation and dyspepsia, to be sold at half price, 25 cents, and have bought hundreds of bottles.

Every bottle of the specific sold by W. S. Lloyd has had his personal guarantee to refund the money if it was not satisfactory, but none has come back, showing the wonderful curative power of this remedy.

If you have not already taken advantage of this chance to get a month's medical treatment for 25 cents, be sure to call at W. S. Lloyd's today, for he has only a small amount of the specific on hand.

Relating to Transactions in Real Estate That Are More or Less Authentic.

The first thing that struck Columbus when he landed in America was the absence of real estate; neither corner lots, country places nor towns, he said to an elderly looking brave, he said, "Give me a deed for this land!"

"Indeed we have not," replied the Indian.

"How old are you?" continued Columbus, meanwhile counting on his fingers the vast fortune that lay before him even at \$100 per lot without sewer, gas, water, paved streets, or any other convenience.

"Our ancestors declared," responded the Indian, as well as the difference in their language would permit.

"Indeed we have not," replied the Indian.

## STRUCK HIS FINAL BALANCE

**Old Bookkeeper Ended Life's Work In Company with the Beloved Leaders.**

In silence he walked up and down the man's office where the click, click of the typewriters almost made him dizzy; but every head bobbed up from its work as he passed with a pleasant smile or friendly nod.

The volume of noisy leave of the beloved volumes over which he had pored days, months, years—yes, more than the quarter of a century; they were his comrades, his inspiration, his soul. Inanimate things occasionally became a sort of major part of his being, so that it was almost brutal to eliminate them from the writer. He was of the past, but the volumes must be handed down to the present—the future. Silently he crossed the huge cover; with unshaken gait, he turned to step into the outer room, but the tears as if they were human and knew of his grief. He leaned forward and laid his tired head, with its thin gray locks, on one of the open books and with one emotion, bloodless hand closed the cover over another. He closed his eyes, deeply, and exhaled a sigh like the soft sooth of the wind through some deserted garden.

The noise in the main office had ceased; so the typewriter girls had gone one by one; the men had taken their departure. The man who swept and mopped the floor, and polished the lights was making a hasty tour of the different offices and opened the door of the aged accountant's room. It was nothing unusual to see him at his desk at this late hour.

"Hello there, Uncle! Still at work?"

The white head never moved from the table. There was an ominous silence. Awe-struck the attendant moved closer to the desk and gently shook his shoulder. "The old man was cold and rigid. He had balanced all earthly accounts.—The bookkeeper."

## BOUNDED TO KEEP THEIR WORD

**Amazing Obstinacy of Cornishmen, for Which They Are Noted, Well Illustrated.**

The Cornish people are credited by H. Hudson, in "The Land's End," with a spirit of stubbornness which at times becomes amusing. The author gives a characteristic incident.

On the road to Redruth, Hook, was on the sands at Whitsand Bay, working at a marine picture, when two natives came up and planted themselves just behind him. There was nothing the artist hated more than to be watched by strangers over his shoulder. He turned and said, "What are you doing here?" They promptly asked him round on them, and he was going to stand there.

His manner served to arouse their spirit, and they replied, brusquely, "We're bound to stay a long time." They thought him a fool, he was as if he were human and knew of his grief.

He inquired on knowing just how long they were going to stay there to his annoyance, and by and by, after some more loud and angry discussion, turned round and declared that they would stand at the very spot for an hour.

"Do you mean that?" shouted Hook, pulling out his watch. "Yes, they then turned, would not stir an inch from the spot for an hour."

"Very well," he said, and pulled up his sleeve; then snatching up his paint brush, he set off again and resumed his painting. And there, within 20 yards of his back, the two men stood for an hour and a quarter, while they did not have a watch, they were afraid of going away before the hour had expired. Then they marched off.

## REPARTEE IN SENATE HALLS

**RADICAL AND EFFECTIVE CURE**

**Insurance Man Firmly Convincing One Practical Joke Has Seen the Error of His Ways.**

"Oh, yes, I had a good time camping out this summer," said the insurance man, "but just before coming home I found a horse. There were a hundred campers of us where we went, and among them were several love-sick young men. It got to be a bad fit for one of them to take a canoe and paddle away and meet it and play every day. So I told the rest of us to hold to turn out and look for him. After this game had been played three or four times I got tired of it. I was routed out one morning at daylight to help search for a dudewhile the others were looking for a red-headed girl in camp. His canoe had drifted ashore bottom up. While some went to dragging the lake, I took a walk in the woods along the shore, and in the course of half an hour I found my man. He wasn't drowning."

"He wasn't even wet. He was smoking a cigarette and feeling a hero," said the narrator.

"And what happened?" was asked.

"I effected a cure. It will be years and years before that young scamp plays the thug again. It may, in fact, be never more. I took him by the collar and jerked him to his feet and rammed the cigarette down his throat, and then I cracked his heels, the air and toyed with him until tired of it, then I lay down and drew him over my knee and spanked him 20 minutes straight. He struggled and yelled, of course, but it was no use. When I had finished him he sneaked up to camp and packed up and disappeared. From that day on he left, causing his right side up, and not a young man was missing on the lake or a young woman lost in the woods to cause the rest of us to miss our regular meals."

## Half a Century of Oil.

Fifty years ago, toward the end of August, 1859, Ed. L. Drake, the sink the first petroleum well at a point on the creek near Titusville, Pa., now flourishes. This was the beginning of the industry which has reached such stupendous proportions. Steps have been taken by the citizens of Titusville to mark the semi-centennial of an event the importance of which is not second to any in the economic history of the United States. Fifteen years of petroleum have wrought revolution, first in artificial illumination, then in the great part of the civilized world, while the enormous growth of the automobile industry another direct result of Drake's drilling is observable. Oil fuel for ships, locomotives and stationary engines is still in its infancy. So far as by-products of petroleum are concerned, they are as varied and as valuable as the by-products of coal.

## "Art Neither Teacher Nor Preacher."

Art is not a sermon, and the artist is not a preacher. Art accomplishes by indirection. The beautiful refines. The perfect in art suggests the perfect in life. Art does not teach, but it teaches without intention, the lesson of proportion in life. The bird in his song has no moral purpose, and yet the influence is humanizing. The beautiful in nature acts through appreciation and sympathy. Art does not break the heart, nor does it heal it. It is beautiful without regard to you. Roses would be unbearable if to their red and perfumed hearts were motives to the effect that bears eat bad boys and that honesty is the best policy—Ingersoll.

## NO INFANTS' FOOD FOR HER

**Humerous Anecdote Concerning Precious Stage Child Related by Popular Comedian.**

N. C. Goodwin, the comedian, was talking in New York about the superb \$5 horse-power motor car, with its drawing room, nearly 12 feet square, in which he would tour Europe with his wife, Goodwin.

"We shall have a hotel," said Mr. Goodwin. "The car will afford ample accommodations for sleeping, bathing and so forth. We'll have a fine time."

"But," a tragedian objected, "you'll find it difficult to get used to such a vehicle."

"Oh, no," said Mr. Goodwin. "We stage folk very quickly get used to things. For example—"

"Ha! Ha!"

"In one of my comedies there was a little girl," he said. "She sat on my knee in the last act. A pretty little thing, six years—eight or nine years old—not more."

"Well, it happened, about the second or third appearance of this tiny novice, that I spied her in the wings one night and thought she was at that moment the prettiest baby in a pale, So, pinching her cheek, I said:

"Little one, can't I get you a bowl of bread and milk?"

"Thanks, old fellow," she answered, smiling, "but I've just sent out you know, for a sandwich and a glass of stout." —*New York Press.*

## CAPBED STORY OF AMERICAN

**Pat Proved Easy Victim in What Might Be Called a Contest of Eaters.**

An American gentleman spending his holidays in county Roscommon, Ireland, tells the following story with which Pat was feeding his mother:

"Once, Pat, you haven't as good hens here as we have in the states."

"Perhaps not," said Pat.

"I'll tell you," said the Yankee, "and tell a hen my mother had the best ever laid. She laid 12 eggs a day, and returned and laid 12 eggs again."

She went out next day and ate a feed of corn and laid 12 more eggs.

She even out the third day and ate more corn, returned, and laid another 12 eggs. She did this on the fourth day, and hatched 12 chickens out of 36 eggs. Now, that is the kind of hen we have in the states."

"Well," said Pat, "I'll tell you about a hen-bird my mother had. She ate a feed of corn, laid 12 eggs, and came out next day and laid 12 more eggs."

### Shatters All Two-Year-Old Trot Records.

The most marvelous performance ever witnessed on any trotting track in the world was seen at Lexington Wednesday afternoon, when in the second heat of the two-year-old division of the Futurity, Native Belle, owned jointly by Murphy, of Poughkeepsie, and Thompson, of New York, broke by almost five seconds the race record for two-year-olds. It was known, after her race at Columbus last week, that Native Belle was exceedingly fast, but the extent of her ability was not even imagined. Her mile in 2:07½ is phenomenal.

### Second Amputation.

On Friday Drs. W. R. Thompson, Reynolds, Duerson and Spratt again amputated the leg of Charles Scott, of Bath, who was run over by a freight train in this city. The member was taken off above the knee.

### Daniel Boone Lost His Trail.

Daniel Boone, of the Spot Cash Grocery, went it all alone to "Pilot Knob" on last Sunday and got lost. He finally found his trail and once out of the woods he galloped a 2:40 gait and never stopped until he reached "dear mother" a soaking wet, and mighty hungry boy. At last reports he is said to be resting well. On his next trip to the mountains he intends to take a large ball of twine so as lead his way back.

### Sewerage, Etc.

At a meeting of the Winchester City Council the ordinance calling for a vote on the sewer question was repealed and a new one passed changing the clause specifying the rate of interest from 4 per cent, to 4½ per cent, and also that \$5,500 instead of \$5,000 be placed in the sinking fund each year. This was done at the request of the Commercial Club, which has investigated the matter thoroughly and found that it was almost impossible to sell the bonds at 4 per cent.

### Rejects Wilson's Requisition.

Governor Willson honored a requisition from the Governor of Mississippi for W. J. Rice, accused of embezzling the funds of a bank in Mississippi and the case coming before Judge A. W. Young at Owingsville Wednesday, he refused to let Rice go on the ground that he is under indictment and under bond for a similar and more important case in Rowan county. Judge Young ruling that an accused person was only subject to the requisition of a Governor when free of any charge in the State from which his return is asked. Rice was submitted to Morehead under sheriff's guard to be held for trial on the charge against him there.

WALDECK.—The child of James Waldeck, formerly of West Liberty, Ky., died in Cuba. The parents are now en route to Olive Hill, Ky., where the burial will take place on Saturday.

BARNETT.—Charles Barnett, of Clark county, died at a Lexington Hospital on Thursday night. He was for many years a prominent merchant of Clay City and land owner. His body was taken to Clay City on Friday afternoon for burial.

HON.—Richard M. Hon, died at Ford Sunday, aged 77 years. His funeral was preached at that place Monday by Elder J. W. Harding and the remains were brought to Hope, this county, for burial. He leaves five daughters, Mesdames C. C. Spensel, E. E. Quisenberry, W. W. Smith, Virgil Tudor and J. W. Hon.

HEFLIN.—Harry R. Heflin, aged 28, son of John W. Heflin and wife, of Flemingsburg, died of tuberculosis Tuesday night, October 5, 1909. After spending two years in Colorado and Arizona he returned home in December. The burial was on Friday morning. J. W. Chenault and wife and John Judy attended the funeral. Mr. Heflin's mother is a sister of Mesdames Judy, Chenault and Bruton and Mr. R. C. Robinson, of our city.

CROUCH.—On Wednesday, October 6, 1909, at Bethel, Ky., Nancy Bruce, aged 4 years, only child of Mr. and Mrs. Patsy Crouch, died of tonsillitis, after a sickness of five days. The funeral service and burial were on Thursday afternoon. The mother is a sister of Wm. Pieratt and was reared at Ezel, Ky. The writer has been in the Crouch home and enjoyed the companionship and love of the child, and expresses sympathy with the parents in their great loss.

WALLER SHARP.—Sharp'sburg and community has sustained a heavy loss in the death of Mr. Waller Sharp, Sr., which occurred Wednesday morning, October 6, at 12:15 o'clock in the Brown-Proctoria Hotel at Winchester, Ky.

Mr. Sharp, early Tuesday morning went to Winchester to attend the meeting of the Burley Tobacco Society. He took a leading part in the deliberations of that body and made two speeches; one in favor of retaining the main offices at Winchester and, another during the evening on tobacco pooling. After the evening meeting he was taken ill. He went into the lobby of the Brown-Proctoria Hotel and his condition grew rapidly worse. Everything possible was done to save his life, but one hour and fifteen minutes after he was taken ill he breathed his last. Acute indigestion was the cause of death, when informed that his condition is critical, he requested that his son, and daughter, then on a trip to relatives in Missouri, be advised. Mr. Sharp was a native of this town, and would have been 60 years old on the 17th of next month. He had resided here all his life and was widely and popularly known.

Mr. Sharp leaves two sons and Waller Sharp, Jr., daughter, Miss Anna Jeffarp, all of this place. The funeral was held at the residence of Mr. Barnett, of Lexington County.

**RELIGIOUS.**

REV. CAREY MORGAN, of Paris, will begin a meeting at the Christian Church in our city on Monday evening, Oct. 25. He is a good preacher, and his coming will be a blessing to this community.

On Thursday the 125 anniversary of Pisgah Presbyterian Church in Woodford county was celebrated. About 800 people were present. Rev. Rout, a former pastor, had been in continuous service for 38 years. The membership is 80. R. B. Crooks, of our country, attended the celebration.

On Friday night of this week there will be service at the Presbyterian church. This service is preparatory to communion. At the close of the service there will be an opportunity for those who desire to unite with the church by letter or confession of faith. On Sabbath morning at 11 o'clock the sacrament of the Lord's Supper will be administered, and in the evening at 7 o'clock the pastor will preach the fourth sermon on "The Church of the Book of Revelation." A hearty welcome is extended to all who wish to attend these services.

The evangelistic meeting which continued for two weeks at the Presbyterian church closed on Monday night last, and the last service was one of the best. The effort put forth was a success in awakening the membership, bringing the people nearer to God and starting some on the right way—the way of salvation. With the exception of last Sabbath night the attendance was large, and that exception was due to bad weather. The plain gospel preaching was searching, making men realize that trusting in the silly generalization: "O, I'm all right," will not save their souls. Sin was made to appear as sin, the wages of sin is death, and the only way of escape is by trusting and serving Christ, the only Savior. The singing was that of one who knew his business. He sang the gospel for the purpose of bringing souls to Christ. Throughout the meetings were quiet, intense, effective. Tonight the evangelists begin another meeting in Evansville, Ind.

The Annual Convention of the Kentucky Sunday School Association will be held in Owensboro October 22-24, 1909. The program is extensive and interesting. The Departmental Conferences are quite a leading feature, and very instructive to the County Superintendents of these departments, as they will be conducted by workers of national repute. Every problem and perplexity that confronts the Sunday School worker will be fully discussed. Every School is entitled to one delegate for each 100 enrollment. Each county is entitled to ten delegates at large. All delegates will receive free lodging and breakfast. The usual rates on the railroads. I sincerely hope that Montgomery will send several delegates. Superintendents of Sunday Schools will please select their delegates and report to me Sunday evening, October 17, so that I may send the names to the committee on entertainment at Owensboro.

## TO BE REMOVED.

Headquarters of Burley Tobacco Society To Go To Lexington.

[Winchester Democrat.]

The removal of Burley headquarters from this city to Lexington is a great blow to Winchester must be admitted by all; and that it is a great blow to the interests of the Burley Society is equally plain. The growers in the counties of Clark, Bourbon, Montgomery and Bath are not enamed with the Society since it has become a one-man concern.

If the headquarters had been removed to some other county whose tobacco growers had entered the pool almost unanimously, there would have been more reason for it, but Lexington is the

enemy's country as much so as Louisville or Cincinnati. Lexington people and Lexington papers have extolled the merits of the loose leaf warehouses and have declared that they are the salvation of the grower.

The success of these houses mean the downfall of the pool. Besides this the removal is the result of the basest ingratitude. Winchester received the pulsing infant with open arms. The pool had no money and Winchester put up thousands of dollars, a warehouse, offices and other things were provided free.

The truth is the Burley Committee is no longer a deliberative body but is dominated by the iron will and master spirit of President LeBus.

## Three-Cent Fares Unless Company Fails to Make Money.

At Cleveland, Ohio, an absolute settlement of the local street railway situation which has been bitterly agitated for eight years, is near.

The basis of the strife has been Mayor Tom L. Johnson's contention for three-cent fares. The proposed settlement will be upon this rate of fare.

It is agreed that the city shall give the Cleveland Railway Company, owner of the local lines, a twenty-five-year franchise, revokable at any time any details of the contract is violated.

The city reserves the right to purchase the lines at any time municipal ownership is lawful, also

to name a purchaser of the after eight years.

The initial rate of fare is three cents with a one cent for a transfer. Both the railway company have to let Judge Robert W. Taylor, the value of the railroad and the maximum rate, is agreed that at no time the rate of fare be greater than the company can allow the company the more than 6 per cent of the property, or good service.

Judge Taylor has agreed to accept the fare of three cents and fare four cents each of the regular ticketed tickets for twenty thousand extra, for both proposition has been com-

## Keep Your Nerve

It is nerve energy that runs the organs of your body. The storage battery is the nerve cell in the brain and spinal cord, and from this battery nerve force is sent out through the system of nerves. To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, medicines inactive, and aches, pains and misery are the penalty.

You can keep the system strong with Dr. Miles' Nerve. It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vigorous.

"Take pleasure in recommending Dr. Miles' Nerve to those suffering from nervous prostration, insomnia, melancholia. After several months of this medicine found immediate relief and soon recovered the nerves, causes away the disease and sufferer恢复健康, gives relief. It is a superb nerve restorer."

## Grand Councillor of China Dead.

Chang Hi Tung, grand councillor of China, died October 4. He was one of the three members of the Grand Council of China, and had been in the Government service practically all his life and was made a grand councillor in 1907. He was director general of the Hankow-Sze-Chuen railroad and prominent in negotiating the loan to China by foreign interests of \$30,000,000 for this line.

To secure funds W. J. Walsh had recourse to the funds of banks. In covering up the losses it is alleged that he used memorandum notes signed with names of clerks who were implicated in the matter. There is nothing on the books to show that Walsh had secured the 1.

For two years Walsh ignored the demands of Controller of the Currency to place his bank upon a foundation, and when the crisis it was discovered that 1 cent of the securities held those of Walsh properties, \$25,000,000 worth of deposits, \$1,000 were represented by enterprises.
